### **Behaviour at National Championships**

We have on occasion seen a range of poor behaviour demonstrated by spectators, coaches and players over the past two years. Disappointingly this has occurred largely at the lower age level tournaments. Consequently, in 2017 BBNZ introduced stricter enforcement of their Internal Regulations.

Detailed below is a link to documentation covering behaviour from 2016 and beyond. It is imperative that this reaches all players, coaches and spectators from within your Association who will be attending the National Championships.

**WHAT IS AIR RELAX?**

**BASKETBALL**  
New Zealand

Air Relax uses the most advanced digitally controlled air pressure system to provide dynamic compression to limbs compromised by poor circulation.

Achieve outstanding result treating:

- Venous insufficiency
- Lymphedema
- Sport injuries
- Poor blood circulation
- Other circulatory and peripheral vascular conditions
- Rapid recovery
- Poor immunity

Most athletes are interested in reducing their recovery time following intense exercise or sporting events. Recent scientific studies have shown that lymphatic therapy provides physiological changes that improves muscular recovery.

The lymphatic system does not have a pump like the heart does. Air Relax delivers that natural sequential compression and flushes waste, which caused soreness, stress and fatigue in the muscles.

So if you want to **MAXIMIZE** your ability to refuel, rehydrate, relax, and recover, and you want to integrate an effective daily recovery into your training programs then Air Relax is for you.
